Please be advised, these comments are intended to assist you in finding information that will enable you to prepare for your plan review. They are not intended to replace or exempt you from the applicable Codes and Ordinances as they pertain to your project. These comments are informational only and do not grant any approvals. Also be advised, from time to time Codes and Ordinances are amended and the comments provided only reflect the regulations in effect at the time of review.

The development project review will be completed utilizing Electronic Plan Review (ePlan). For questions regarding this process, please consult the Electronic Plan Review Applicant User Guide that can be found <u>HERE</u>.

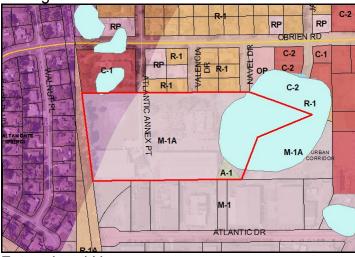

Printed: 12/28/22 3:10 PM Page 1 of 6

PROJECT MANAGER COMMENTS

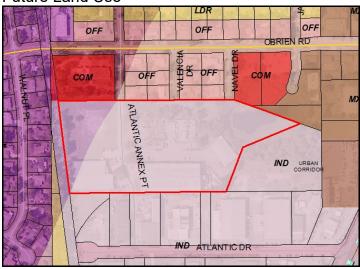

- The proposed additional parking will require Site Plan review.
- The applicant at the time of Site Plan review will be required to show that they are
 meeting the parking requirements for the permitted use and show the existing buildings,
 existing parking areas, as well as the additional parking spaces that are being provided
 on site.
- All existing easements will need to be shown on the Site Plan that are referenced on the boundary survey.
- The proposed parking lot cannot be built into an existing easement (ex. drainage easement).

AGENCY/DEPARTMENT COMMENTS

No.	Group Name	Reviewer Comment	Status
1.	Buffers and CPTED	Parking lot landscaping will be required in accordance with SCLDC Sec. 30. 1292.	Informational
2.	Buffers and CPTED	A full buffer review will be done if a site plan review is triggered. Please provide the ISR, building height and hours of operation with the site plan application.	Informational
3.	Comprehensive Planning	The proposed parking expansion is compatible with the IND future land use.	Informational
4.	Comprehensive Planning	Please be aware the maximum FAR allowed in the IND future land use is 0.65.	Informational
5.	Natural Resources	During site plan review, please submit the results of a geotechnical exploration. According to county maps, karst features are possible present on the eastern side of the property.	Informational
6.	Planning and Development	INFORMATIONAL: County staff has reviewed the subject project based on the information you have provided to us and have compiled the following information for your use. Please be advised, these comments are intended to assist you in finding information that will enable you to prepare for your plan review. They are not intended to replace or exempt you from the applicable Codes and Ordinances as they pertain to your project. These comments are informational only and do not grant any approvals. Also be advised, from time to time Codes and Ordinances are amended and the comments provided only reflect the regulations in effect at the time of review. Seminole County Land Development Code: http://www.seminolecountyfl.gov/guide/codes.asp Seminole County Planning & Development: http://www.seminolecountyfl.gov/gm/	Informational
7.	Planning and Development	SETBACKS: The setbacks for the M-1A zoning district are: 50' Front Yard, 10' Rear yard, 10' Side Yard, 50' Side Street.	Informational
8.	Planning and Development		
9.	The permitted use would need to show that they are meeting the required parking for that use. Then show the additional parking that is being added to the site. Parking and landscaping requirement can be found in SCLDC Part 64 Chapter 30. Parking requirements for the subject use is: Manufacturing Concerns and Warehouses. One (1) space for each one thousand (1,000) square feet of building plus one (1) space for each two (2) employees on the largest shift.		Informational
10.	Planning and Development	The new parking lot cannot be built into an established easement (ex. drainage, utility).	Informational
11.	Planning and Development	Parking space size is 10' x 20' per the Seminole County Land Development Code. Please make sure to call out parking size on the site plan.	Informational

12.	Public Safety - Fire Marshal	Fire department access road shall have an unobstructed width of not less than 20 ft in accordance with the specifications of NFPA 1, Section 18.2.3.5.1 (2018 Edition). Provide verification that all fire department access roads are a minimum of 20 FT in clear width even if there is a median on the road. If on-street parking, provide verification that proper clearances will be maintained, and no parking sign shall be provided	Informational
13.	Public Safety - Fire Marshal	When the access road is a dead end, in excess of 150 ft in length, an approved turn around for fire apparatus shall be provided (NFPA 1, 18.2.3.4 2018 ED)	Informational
14.	Public Safety - Fire Marshal	Fire department access roads shall be designed and maintained to support the imposed loads of fire apparatus and shall be provided with an all-weather driving surface. NFPA 1, Chapter 18.2.3.4.2 (2018). Verify that stabilized road can hold 39 tons	Informational
15.	Public Safety - Fire Marshal	Include turning radius analysis with plans. * Turning radius analysis based on the aerial truck Specifications. (Section 18.2.3.4.3. NFPA 1, 2018 Edition) NOTE: Fire Truck Parameters: - Inside Cramp Angle: 40 Degrees-Axle Track: 82.92 inches-Wheel Offset: 5.30 inches-Tread Width: 17.5 inches-Chassis Overhang: 68.99 inches-Additional Bumper Depth: 22 inches-Front Overhang: 90.99 inches-Wheelbase: 270 inches-Calculated Turning Radius: - Inside Turn: 25 ft. 7 inCurb to Curb: 41 ft. 8 inWall to Wall: 48 ft. 5 in.	Informational
16.	Public Safety - Fire Marshal	New or existing fire hydrants shall be identified on plan to meet the requirements of Chapter 18.5. (NFPA 1 2018 Edition). Provide yellow stripping for all fire department appliances such as fire hydrants and for fire department access lanes in accordance with NFPA 18.2.3.5 (2018) Provide Fire Lane Signage per NFPA 1, 2018 ED, CH 18, 18.2.3.6.3 (Florida Specific) A 36 in. clear space shall be maintained around the circumference of fire hydrants and a clear space of not less than 60 in. (1524 mm) shall be provided in front of each hydrant connection having a diameter greater than 212 in. NFPA 1, 18.5.7. Hydrant shall be marked with a blue reflector that is placed in the roadway in accordance with NFPA 1, chapter 18.5.10 (2018)	Informational
17.	Public Safety - Fire Marshal	Additional comments may be generated based on actual Site submittal	Informational
18.	Public Works - Engineering	Based on FEMA FIRM Map the site or portions of the site appear to lie in the floodplain. Seminole County does not allow fill in the floodplain without equal volumetric compensation.	Informational
19.	Public Works - Engineering	The proposed project is located within the Howell Creek drainage basin.	Informational
20.	Public Works - Engineering	Based on SCS Soil Survey GIS overlays, the site generally has Urban class soils.	Informational
21.	Based on a preliminary review, the site is part of a master drainage system. However this may not meet current drainage requirements. At a minimum, the site will be required to show that with the additional impervious the site will meet current permitted requirements. Otherwise additional retention may be required. The new impervious would have to hold water quality and not exceed the pre-development rate and volume of discharge for the 25-year,24-hour storm event.		Informational
22.	Public Works - Engineering	Based on 1 ft. contours, the topography of the site appears to slope generally east.	Informational

23.	Public Works - Engineering	Based on a preliminary review, the site appears to outfall to the existing onsite system and then to the pond that discharges to FDOT. Note that an FDOT Drainage Connection Permit or letter of exemption would be required.	Informational
24.	Public Works - Engineering	A detailed drainage analysis will be required at final engineering.	Informational
25.	Public Works - Engineering	A permit from the St. John's River Water Management District or Florida Department of Environmental Protection is generally required for projects with more than 5,000 sq. ft. of new impervious or 4,000 sq. ft. of new building for a total of 9,000 sq. ft. of new impervious surface. For more information see www.sjrwmd.com.	Informational
26.	Public Works - Engineering	A National Pollutant Discharge Elimination System (NPDES) Permit is required for all projects that disturb greater than one acre. (http://cfpub.epa.gov/npdes/home.cfm?program_id=45)	Informational
27.	Public Works - Engineering	Sidewalks shall be required in accordance with the code. At final engineering approval a note to the plans that states "Any sidewalk less than 5' wide (6' along arterial or collector roads) or any broken sidewalk within Seminole County ROW abutting property frontage will be brought into compliance with Seminole County regulations.	Informational

AGENCY/DEPARTMENT EFORM COMMENTS AND PROJECT STATUS
