Good Morning!

I am pleased to announce that all of our projects we applied for Emergency Watershed Protection (EWP) through the National Resources Conservation Service (NRCS) from Hurricane Ian have been approved (see below).

George W, I will need your help in filling these forms out to get back to Mr. Strenth so he can start working on the Agreement.

Once agreements and funding is in place, these projects will go quick. Again, just to stress, when the clock starts, we only have 220 days from start to finish. We will all need to work together to make this process go smooth.

If anyone has any questions, please let me know.

Marie Lackey

Marie,

I have been informed that the Seminole County damage survey reports (DSR's) have been approved and should be funded shortly. The following DSR's and their estimated construction cost were approved for Seminole County:

- IAN-SEM-001: \$136,867 (Little Wekiva River The Springs Erosion)
- IAN-SEM-002: \$1,978,995 (Little Wekiva River Mahogany Lane)
- IAN-SEM-003: \$63,859 (Little Wekiva River Horse Lovers Ln)
- IAN-SEM-004: \$114,476 (Howell Creek Willa Creek Apts)
- IAN-SEM-005: \$43,175 (Howell Creek 1137 &1141 Tuscawilla Pt)
- IAN-SEM-006: \$45,458 (Bear Gully Canal @ Slavia)
- IAN-SEM-007: \$754,100 (Lockhart Smith Canal)
- IAN-SEM-008: \$55,974 (Soldiers Creek)
- IAN-SEM-009: \$4,165,668 (Debris Removal for Gee Creek, Howell Creek, Six Mile Creek, Soldiers Creek, Sweetwater Creek, Little Wekiva River, Lockhart Smith Canal, Navy Canal & Sunland Outfall)
- IAN-SEM-010: \$2,091,850 (Debris Removal for Little Econ River, Big Econ River, Salt Creek & Bear Gully Creek)

The total estimated construction cost is \$9,450,422.00. NRCS will reimburse for 75% of the construction cost (not to exceed \$7,087,816.50) and also 10% of the construction cost (not to exceed \$945,042.20) for technical services items such as survey, design, contract administration, and inspection.

The Emergency Watershed Protection (EWP) program operates via a cooperative agreement between NRCS and the sponsor, where the sponsor administers the agreement and manages the work. In order to be ready for the upcoming funding, we need to start preparing for the agreement. I need the following items completed and returned to me:

- SF-424 (Application for Federal Assistance) I have entered the correct budget numbers in Section 18 already and I have also attached an example to assist. Disregard the SF-424C.
- SF-424D
- · Certification Regarding Lobbying
- Sponsor Contact Information

The sooner we receive the above items, the sooner we can start writing the agreement once funding is approved. Also, as a sponsor, you need to be registered with <u>sam.gov</u> and have a unique entity identifier (UEI).

If you have any questions, let me know.
