▲ 308% from 2023

29
Veterans
▲ 123% from 2023

48
Unaccompanied
Youth
▲ 100% from 2023

Sheltered Count

Insights

The COVID-19 pandemic impacted the number of people in shelter. Policies intended to reduce the spread of the virus limited capacity in traditional shelters. Central Florida responded by increasing resources available for non-congregate shelter options via ESG-CV funding.

As a result, our sheltered population has returned to pre-pandemic levels.

Unsheltered Count

Insights

The number of people experiencing unsheltered homelessness increased by 253% from 2023 to 2024.

The number of volunteers for this year's PIT increased by 400% (+355 people) which resulted in a 238% increase in completed surveys.

The primary driver of the increase in unsheltered homelessness is the continuing lack of affordable housing coupled with rising rents and high eviction rates.

PLT Demographics

Race Distribution

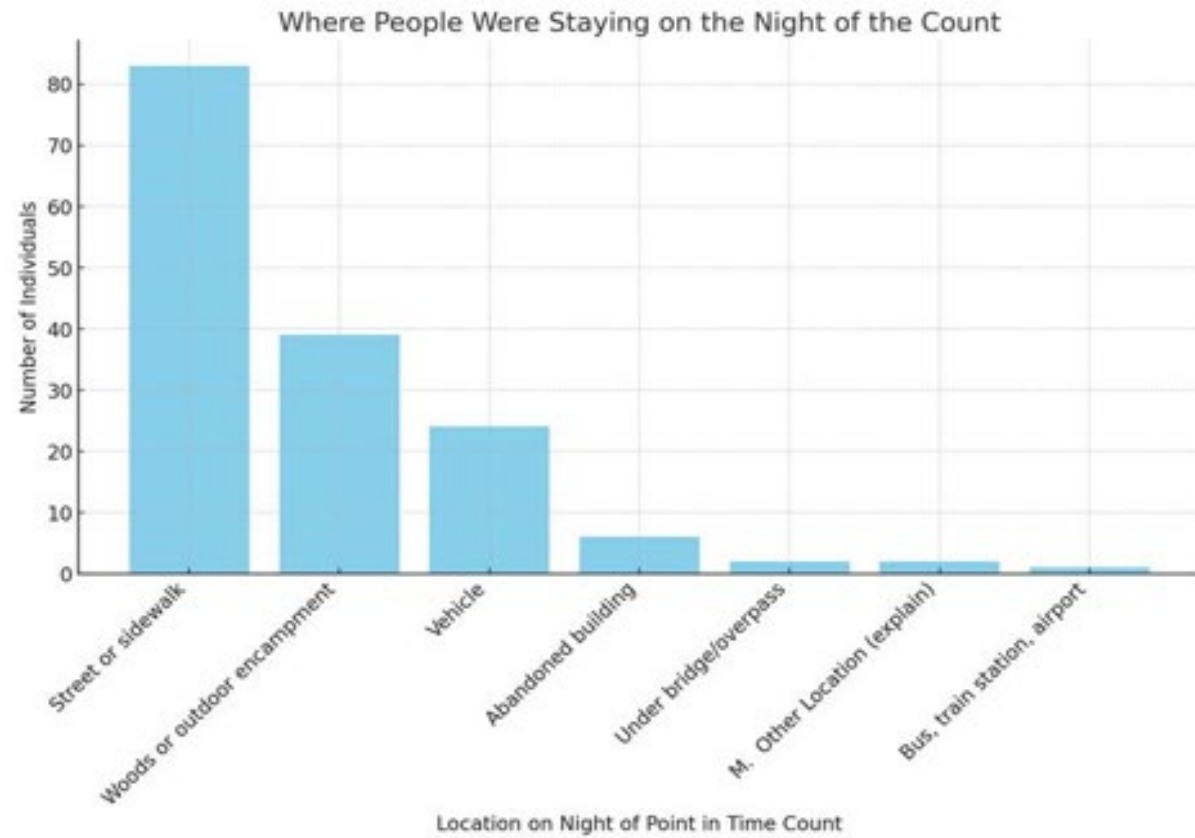

Insights

U.S. Census Bureau average estimate of race breakdown for Central Florida (July 1, 2022):

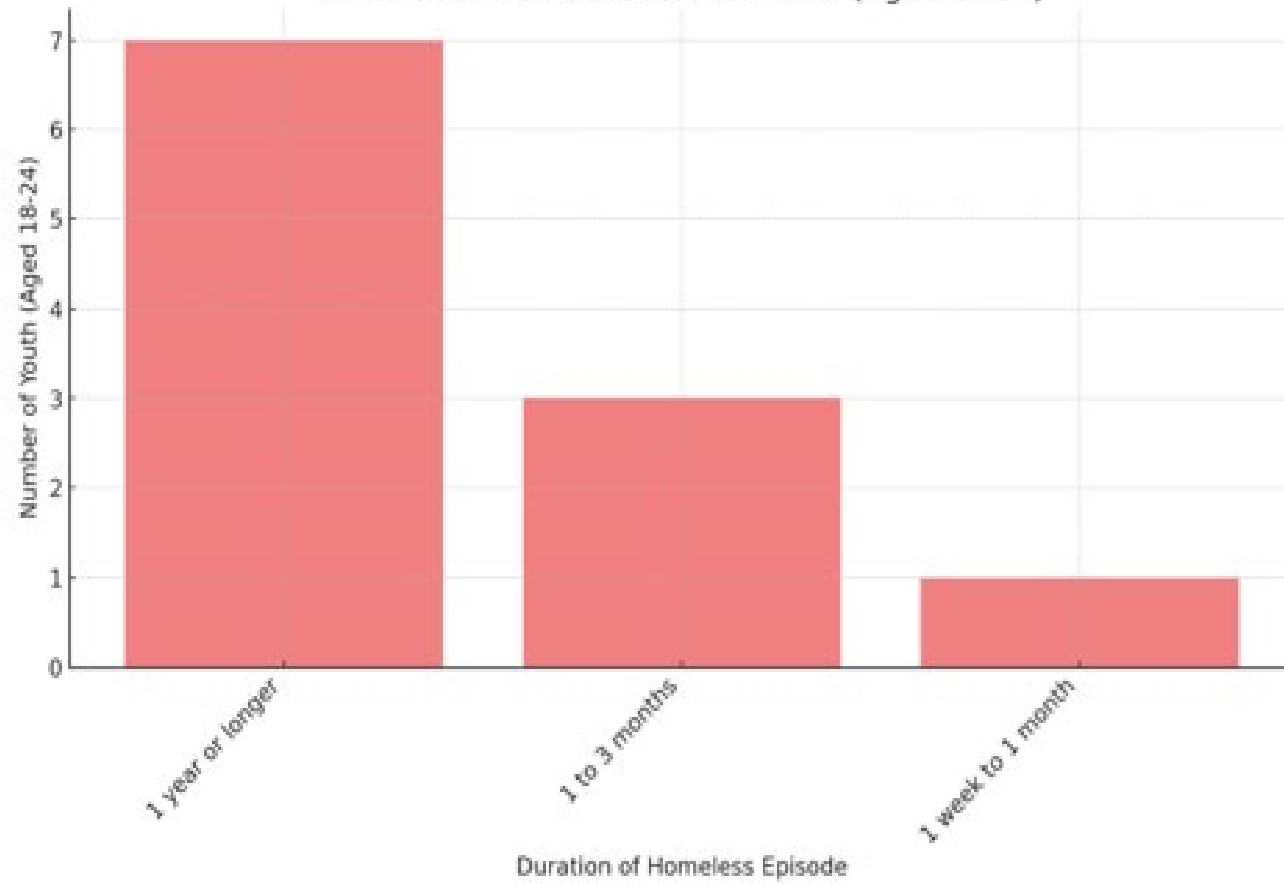

- White (74.47%)
- Black (17.03%)
- All Other Races (8.5%)

Over-representation of Black population experiencing homelessness
