NOTICE OF COMMUNITY MEETING

November 5, 2025

Hello All,

This letter is a requirement of Seminole County for us to ask for your acceptance to build a carport in the upper left northwest corner of our property next to Maschmeyer's property line, instead of the normal setback of 10', we would like to put our carport 1' off their block property line. This would be an open carport to shelter our work trailers when not in use and our family RV.

Our Parcel is 07-21-30-515-0000-005B

***Meeting will be held in our FWDS office showroom:
500 Plumosa Ave, Altamonte Springs, FL 32701
December 9th, 2025 at 6:00-6:30 P.M. Eastern Time.**

Subject Property:

Current zoning for the carport is a 10' setback, we are asking for 1'.

500 Plumosa Ave, Altamonte Springs, FL 32701 – see attached survey for location of carport on said property.

Introduction of Topic at Subject Property:

Once again, we would like to install a carport at 1' off our property line vs the normal setback of 10' – this carport is 24' x 50'.

This is an introduction of the project application to hold a public hearing and then approval of Seminole County Board of County Commissioners.

Once approved, we will start the permitting process, then purchase the carport and hopefully install by end of the first quarter of 2026.

Thank you,

A handwritten signature in blue ink, appearing to read 'Rod Kubier'.

VARIANCE CRITERIA

Respond completely and fully to all 6 criteria listed below to demonstrate that the request meets the standards of Seminole County Land Development Code Section 30.3.3.2(b) for the granting of a variance:

1. What are the special conditions and circumstances that exist that are peculiar to the land, structure, or building involved, and which are not applicable to other lands, structures, or buildings in the same zoning district?

The tenant in Parcel 07-21-30-515-0000-005C has a 6' tall x 6' deep cement blocks on and sometimes over the property line bordering his southern border and our northern parcel lot line, therefore we are asking for a 1' variance to our line to install a carport with several poles near the property line.

2. How are the special conditions and circumstances that exist not the result of the actions of the applicant?
Our commercial neighbor has large cement blocks setting precedence for us to install a carport near property lines similar to our neighbor

3. How would the granting of the variance request not confer on the applicant any special privilege that is denied by Chapter 30 to other lands, buildings, or structures in the same zoning district?

Precedence is set were just doing similar or less what our neighbor has done.

4. How would the literal interpretation of the provisions of the zoning regulations deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would work unnecessary and undue hardship on the applicant?

several of our trailers wouldn't have had UV protection, and cement dust protection/cover

5. How would the requested variance be the minimum variance that will make possible the reasonable use of the land, building, or structure?

We are just following what our neighbor did no less no more

6. How would the granting of the variance be in harmony with the general intent and purpose of the zoning regulations and not be injurious to the neighborhood, or otherwise detrimental to the public welfare?

None to either the neighborhood or public welfare, it is the very back corners of both of our properties, that the commercial properties are in, no real neighborhood where any one lives, public would rarely if ever would see.
