Tuskawilla Storage PD (Project No. 22-20500015)
Minutes of Community Meeting Held on March 14, 2023

Community Meeting was held in the Banquet Room at The Foundry Church, 1491 East State Road 434, Winter Springs, Florida.

In attendance for the Applicant were Dave Axel, Axel Real Estate, Inc., and S. Brent Spain, Esquire, Theriaque & Spain.

Eighty-seven (87) members of the public filled out the Applicant's "Sign In" Sheets as requested by Mr. Axel before and during the community meeting. (*See* Exhibit "A"). Fourteen (14) members of the public also filled out a separate sign-in sheet that the Winter Springs Mayor had set out at the community meeting. (*See* Exhibit "B")

The community meeting started at approximately 6:08 pm by Dave Axel

Dave Axel welcomed those in attendance and provided an introduction. Mr. Axel then provided an overview of the Tuskawilla Storage PD and Seminole County's PD review process. He discussed the proposed Master Development Plan (MDP) and 3d renderings of the proposed project. He also discussed the limitations imposed on the site as part of the MDP and the proposed Development Order. Mr. Axel and Mr. Spain displayed oversized 24" x 36" poster prints of the proposed MDP, architectural renderings of the proposed building, a conceptual 3d rendering from Tuskawilla Boulevard, and a 3d rendering of the vegetative buffer along the eastern property line of the site. The poster prints were on display before, during, and following the conclusion of the community meeting for attendees to view.

Following his presentation, Mr. Axel opened the floor to questions and comments from those in attendance.

Attendees asked questions or made comments regarding a wide range of matters, including the following topics: location of fire water tank, buffer zones, driveway and access locations, traffic generation, hours of operation, types of commercial uses, impact on home values, incompatibility with nearby neighborhoods, public notice for the community meeting, the timing of the community meeting, traffic safety, opposition to the project, use of the storage units by contractors, whether the operator is a franchise or independent, security for the site, after-hours access, signage requirements, perimeter fencing, soil testing from prior industrial uses on the site, stormwater retention, visibility of building, status of the approval for the project, other preferred uses for the site, building height and number of stories, exterior lighting, other uses allowed on M-1 zoned property, status of permit for septic system, ability to connect to water and sewer lines, traffic study, number of storage units, vehicular stacking at entrance, sidewalks on Tuskawilla Boulevard, setbacks, children walking to nearby schools, other alternative zonings, EMS services, crime, noise, whether the operator/developer is local, potential for outside storage, name of the project, the decision to seek PD zoning, whether there is a Plan B for the site, zoning for the rear of the site, design/architecture of building, windows, buffer from Tuskawilla Crossings, and other potential buyers.

Mr. Axel allowed time for every question or comment desired by any attendee at the community meeting and he answered or responded to every question.

Following all questions and comments by the attendees, Mr. Axel thanked everyone for attending and advised the attendees that he anticipated Seminole County to consider the application at public hearings in May. He advised that the County would mail notices regarding such meetings. Mr. Axel concluded the community meeting at approximately 7:32 pm. Mr. Axel and Mr. Spain stayed on site until approximately 8:00 pm to speak to individual attendees and to allow attendees time to look at the poster prints on display.
