Narrative

The following narrative outlines the proposal in regards to a preapplication meeting. The applicant has detailed the site, as outlined below:

The Seminole Springs project is a proposed multi-family residential development located in unincorporated Seminole County, Florida, at the northeast corner of State Road 46 and Orange Boulevard. The 7.67-acre site is zoned Planned Development (PD) and falls within the State Road 46 Gateway Corridor Overlay. The development includes a three-story residential building consisting of 130 units, with a mix of one- and two-bedroom layouts ranging from 607 to 1,243 square feet. The site provides a total of 242 parking spaces, exceeding the required 215 spaces, and includes 8 handicap-accessible spots. Building setbacks and 25-foot landscape buffers are provided on all sides, surpassing minimum zoning requirements. Site features include a clubhouse, internal drive aisles, ADA-accessible ramps, and a retention/detention pond designed to manage stormwater. The layout reflects compliance with development standards while aiming to offer a well-integrated, community-focused residential environment.
