39	Planning	Planning and Development	A Special Exception for Master's Academy was approved 1998. The addition of the portables will requires an amendment to the Special Exception. Seminole County Land Development Code Sec. 30.124 Special Exceptions: The Board of County Commissioners may grant special exception uses under the A-1 zoning classification. In granting any of the Special Exception uses, the Board may place additional restrictions and conditions in its sound discretion, deemed necessary to protect the character of the area or neighborhood and the public health, safety, and welfare of the community. The Board will consider the compatibility of the proposed use with surrounding land uses and development patterns in the area. Before granting a Special Exception, the Board must first determine that the proposed use: Is not detrimental to the character of the area or neighborhood or inconsistent with trends of development in the area. Does not have an unduly adverse effect on existing traffic patterns, movements and volumes. Is consistent with the Countys Vision 2020 Comprehensive Plan. Meets any additional requirements specified in the code section authorizing the use in a particular zoning district or classification. Will not adversely affect the public interest. Special Exceptions require two public hearings. The Special Exception request is presented to the Planning and Zoning Commission Board for a recommendation, followed by the Board of County Commissioners for approval/denial. Upon approval of a Special Exception by the Board of County Commissioners, the applicant must then submit an Engineered Site Plan for review and approval prior to site development.

			Please include with your application how this project meets the Special Exception Criteria and any other conditions deemed necessary to protect the character of the area or neighborhood.
