SECTION 1. INTRODUCTION. These General Terms and Conditions are amended or supplemented by the Supplementary Conditions attached hereto and incorporated as Exhibit "A".

SECTION 2. SERVICES. The COUNTY does hereby retain the CONSULTANT/CONTRACTOR to furnish those services and perform those tasks as further described in the Scope of Services attached hereto and incorporated herein as Exhibit "B".

SECTION 3. METHOD OF COMPENSATION. Compensation for the services to be provided by the CONSULTANT/CONTRACTOR are attached hereto and incorporated as Exhibit "C". If the compensation is based on:

(a) FIXED FEE BASIS, then the Agreement Amount becomes the Fixed Fee Amount and the CONSULTANT/CONTRACTOR shall perform all work required by this Agreement for the Fixed Fee Amount. The Fixed Fee is an all-inclusive Firm Fixed Price binding the CONSULTANT/CONTRACTOR to complete the work for the Fixed Fee Amount regardless of the costs of performance. The work to be performed by the CONSULTANT/CONTRACTOR shall be based on the Labor Hour Rates established in Exhibit "C" of this Agreement. In no event shall the CONSULTANT/CONTRACTOR be paid more than the Fixed Fee Amount.

(b) TIME BASIS WITH A NOT-TO-EXCEED AMOUNT, then the Agreement Amount becomes the Not-to-Exceed Amount and the CONSULTANT/CONTRACTOR shall perform all the work required by this Agreement for a sum not exceeding the Not-to-Exceed Amount. In no event is the CONSULTANT/CONTRACTOR authorized to incur expenses exceeding the not-to-exceed amount without the express written consent of the COUNTY. Such consent will normally be in the form of an amendment to this Agreement. The CONSULTANT/CONTRACTOR'S compensation shall be based on the actual work required by this Agreement and the Labor Hour Rates established in Exhibit "C" of this Agreement. Only the Labor Rates provided as of the date of the CONSULTANT/CONTRACTOR'S price proposal attached hereto as Exhibit "C" shall remain in effect for this project.

(c) TIME BASIS WITH A LIMITATION OF FUNDS AMOUNT, then the Agreement Amount becomes the Limitation of Funds amount and the CONSULTANT/CONTRACTOR is not authorized to exceed the Limitation of Funds amount without prior written approval of the COUNTY. Such approval, if given by the COUNTY, shall indicate a new Limitation of Funds amount. The CONSULTANT/CONTRACTOR shall advise the COUNTY whenever the CONSULTANT/CONTRACTOR has incurred expenses on this Agreement that equals or exceeds eighty percent (80%) of the Limitation of Funds amount. The CONSULTANT/CONTRACTOR'S compensation shall be based on the actual work required by this Agreement and the Labor Hour Rates established in Exhibit "C" of this Agreement. Only the Labor Rates provided as of the date of the CONSULTANT/CONTRACTOR'S price proposal attached hereto as Exhibit "C" shall remain in effect for this project.

(d) The CONSULTANT/CONTRACTOR may utilize labor categories that are not included in the attached fee proposal. If a substitution is necessary, the work shall be completed within the approved Time Basis (Not-To-Exceed or Limitation of Funds) Work Order Amount, and in no event shall the Agreement Amount be modified as a result of any changes in labor categories. The CONSULTANT/CONTRACTOR shall submit a written request to the COUNTY'S PROJECT MANAGER for approval of any substitution prior to the utilization of any labor category for service, and the COUNTY PROJECT MANAGER'S approval of any substitution must take place prior to submission of the invoice. Any approved labor category substitution shall be in effect on the date of the County's approval for any substitution.

SECTION 4. PAYMENT:

(a) Payments shall be made to the CONSULTANT/CONTRACTOR when requested as work progresses for services furnished, but not more than once monthly. (d) Payment shall be made after review and approval by the COUNTY within thirty (30) days of receipt of a proper invoice from the CONSULTANT/CONTRACTOR.

SECTION 5. AUDIT OF RECORDS.

(a) The COUNTY may perform or have performed an audit of the records of the CONSULTANT/CONTRACTOR after final payment to support final payment hereunder. This audit would be performed at a time mutually agreeable to the CONSULTANT/CONTRACTOR and the COUNTY subsequent to the close of the final fiscal period in which the last work is performed. Total compensation to the CONSULTANT/CONTRACTOR may be determined subsequent to an audit as provided for in subsection (b) and of this Section, and the total compensation so determined shall be used to calculate final payment to the CONSULTANT/CONTRACTOR. Conduct of this audit shall not delay final payment as required by Section 4(d).

(b) The CONSULTANT/CONTRACTOR agrees to maintain all books, documents, papers, accounting records and other evidences pertaining to work performed under this Agreement in such a manner as will readily conform to the terms of this Agreement and to make such materials available at the CONSULTANT/CONTRACTOR'S office at all reasonable times during the Agreement period and for five (5) years from the date of final payment under the Agreement for audit or inspection as provided for in subsection (a) of this Section.

(c) In the event any audit or inspection conducted after final payment, but within the period provided in subsection (b) of this Section reveals any overpayment by the COUNTY under the terms of the Agreement, the CONSULTANT/CONTRACTOR shall refund such overpayment to the COUNTY within thirty (30) days of notice by the COUNTY.

SECTION 6. RESPONSIBILITY OF CONSULTANT/CONTRACTOR.

(a) The CONSULTANT/CONTRACTOR shall be responsible for the professional quality, technical accuracy and the coordination of all deliverables, including but not limited to, plans, studies, reports and other services furnished by the CONSULTANT/CONTRACTOR under this Agreement. The CONSULTANT/CONTRACTOR shall, without additional compensation, correct or revise any errors or deficiencies in his services.

(b) Neither the COUNTY'S review, approval or acceptance of, nor payment for, any of the services required shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement and the CONSULTANT/CONTRACTOR shall be and remain liable to the COUNTY in accordance with applicable law for all damages to the COUNTY caused by the CONSULTANT/CONTRACTOR'S performance of any of the services furnished under this Agreement.

SECTION 7. OWNERSHIP OF DOCUMENTS. All deliverables, including but not limited to, reference data, survey data, plans and reports that result

Upon receipt of such notice, the CONSULTANT/CONTRACTOR shall:

(1) Immediately discontinue all services affected unless the notice directs otherwise; and

(2) Deliver to the COUNTY all plans, studies, reports, estimates, summaries, and such other information and materials as may have been accumulated by the CONSULTANT/CONTRACTOR in performing this Agreement, whether completed or in process.

(b) If the termination is for the convenience of the COUNTY, the CONSULTANT/CONTRACTOR shall be paid compensation for acceptable services performed to the date of termination. The CONSULTANT/CONTRACTOR shall be paid no more than a percentage of any Fixed Fee amount equivalent to the percentage of the completion of work contemplated by the Agreement.

(c) If the termination is due to the failure of the CONSULTANT/CONTRACTOR to fulfill their Agreement obligations, the COUNTY may take over the work and prosecute the same to completion by Agreement or otherwise. In such case, the CONSULTANT/CONTRACTOR shall be liable to the COUNTY for reasonable additional costs occasioned to the COUNTY thereby. The CONSULTANT/CONTRACTOR shall not be liable for such additional costs if the failure to perform the Agreement arises out of causes beyond the control and without the fault or negligence of the CONSULTANT/CONTRACTOR. Such causes may include, but are not limited to, acts of God or of the public enemy, acts of the COUNTY in either its sovereign or Contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; but, in every case, the failure to perform must be beyond the control and without the fault or negligence of the CONSULTANT/CONTRACTOR.

(d) If, after notice of termination for failure to fulfill Agreement obligations, it is determined that the CONSULTANT/CONTRACTOR had not so failed, the termination shall be deemed to have been effected for the convenience of the COUNTY. In such event, adjustment in the Agreement price shall be made as provided in subsection (b) of this Section.

(e) The rights and remedies of the COUNTY provided in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

SECTION 10. EQUAL OPPORTUNITY EMPLOYMENT. The CONSULTANT/CONTRACTOR/CONTRACTOR agrees that it will not discriminate against any employee or applicant for employment for work under this Agreement because of race, color, religion, sex, age, national origin, or disability and will take steps to ensure that applicants are employed, and employees are treated during employment, without regard to race, color, religion, sex, age, national origin or disability. This provision shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

SECTION 11. NO CONTINGENT FEES. The CONSULTANT/CONTRACTOR warrants that it has not employed or retained any company or persons, other than a bona fide employee working solely for

the CONSULTANT/CONTRACTOR, to solicit or secure this Agreement and that CONSULTANT/CONTRACTOR has not paid or agreed to pay any persons, company, corporation, individual or firm, other than a bona fide employee working solely for the CONSULTANT/CONTRACTOR, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of this provision, the COUNTY shall have the right to terminate the Agreement at its discretion, without liability and to deduct from the Agreement price, or otherwise recover, the full amount of such fee, commission, percentage, gift or consideration.

SECTION 12. ASSIGNMENT. This Agreement, or any interest herein, shall not be assigned, transferred, or otherwise encumbered, under any circumstances, by the parties hereto without prior written consent of the opposite party and only by a document of equal dignity herewith.

SECTION 13. SUB-CONSULTANTS/CONTRACTORS. In the event CONSULTANT/CONTRACTOR, during the course of the work under this Agreement, requires the services of any sub-CONSULTANTS/CONTRACTORS or other professional associates in connection with service covered by this Agreement, the CONSULTANT/CONTRACTOR must secure the prior written approval of the COUNTY. If sub-CONSULTANTS/CONTRACTORS or other professional associates are required in connection with the services covered by this Agreement, the CONSULTANT/CONTRACTOR shall remain fully responsible for the services of sub-CONSULTANTS/CONTRACTORS or other professional associates.

SECTION 14. INDEMNIFICATION OF THE COUNTY. The CONSULTANT/CONTRACTOR agrees to hold harmless, replace, and indemnify the COUNTY, its commissioners, officers, employees, and agents against any and all claim, losses, damages or lawsuits for damages, arising from, allegedly arising from, or related to the provision of services hereunder by the CONSULTANT/CONTRACTOR, whether caused by the CONSULTANT/CONTRACTOR or otherwise. This hold harmless, release and indemnification shall include any claim based on negligence, action or inaction of the parties.

SECTION 15. INSURANCE.

The Certificate of Insurance shall provide that the COUNTY shall be given, by policy endorsement, not less than thirty (30) days written notice prior to the cancellation or non renewal. Until such time as the insurance is no longer required to be maintained by the CONSULTANT/CONTRACTOR, the CONSULTANT/CONTRACTOR shall provide the COUNTY with a renewal or replacement Certificate of Insurance not less than ten (10) days before expiration or replacement of the insurance for which a previous certificate has been provided.

Certified copies of policies may only be provided by the Insurer, not the Agent/Broker.

(4) Neither approval by the COUNTY or failure to disapprove the insurance furnished by the CONSULTANT/CONTRACTOR shall relieve the CONSULTANT/CONTRACTOR of the CONSULTANT'S/CONTRACTOR'S full responsibility for performance of any obligation including the

(c) In the event that the COUNTY'S ADR procedures are exhausted and a suit is filed or legal remedies are otherwise pursued, the parties shall exercise best efforts to resolve disputes through voluntary mediation. Mediator selection and the procedures to be employed in voluntary mediation shall be mutually acceptable to the parties. Costs of voluntary mediation shall be shared equally among the parties participating in the mediation.

SCOPE OF WORK

McCulloch Road 24" Recycled Water Main Repair

PREPARED FOR: Chris Graybosch
PREPARED BY: Mike Rood
DATE: 04/10/2023
LOCATION: Seminole County – 14002 McCulloch Road
WORK ORDER: WO #23-05

1.0 Project Driver

The existing 24" recycled water main on the north side of McCulloch Road burst. Recycled water service to County accounts and the City of Oviedo has been interrupted and needs to be restored.

Approximate location of pipe burst on north side of McCulloch Road

2.0 Background

Kiewit has visited the site to understand the scope of work. Kiewit proposes to use a series of sleeves and restrained joints to repair the damaged pipeline. This proposal is based on the following assumptions and clarifications:

- Groundwater elevation at the damaged pipe is unknown. Kiewit plans on using a well-point dewatering system with pipe socks for filtering the discharge prior to an area that naturally drains away from the work zone. The system will be capable of pumping approximately 1000 gallons per minute.
- Any water remaining from the initial pipe burst that is not displaced with the fill materials will be pumped to the nearest area away from the work zone.
- The existing adjacent utilities exact locations are not known. Kiewit will investigate the location of the utilities and develop a pipe excavation plan that seeks to avoid them. This proposal is based on being able to use a trench box and steel plates to access the damaged pipe. If additional shoring is needed to accommodate the existing utilities, this will result in a change to the proposal.
- Any remaining spoils will be left at the site. Spoils will be knocked down and spread out as best as possible without creating a need for additional clear and grub activities.
- Compaction testing for backfill will be provided by Kiewit. Imported soil and backfill around the pipe will be compacted to 90%.
- The new ductile iron pipe and fittings will be Class 150.
- This proposal is based on performing this work in a way that does not extend the duration of the current project to repair the 8" PVC sewer line on Lockwood Blvd. If the work at the sewer line on Lockwood Blvd. is extended, then there will be cost impacts for the rental of items such as shoring systems, dewatering systems, fencing, site security, etc. that can either be added to this project or the Lockwood Blvd. project as a Change Order.
- Kiewit has not included any scope of work for cleaning debris from the existing 24" recycled water main beyond the 30' of pipe to be repaired. Kiewit will clean any debris as a result of Kiewit's work, but it is likely that some amount of debris and/or sediment has traveled east or west from the damaged pipe as a result of the initial pipe burst.
- Details about the sequence and scope of work can be found in Section 4 of this Proposal.
- A performance and payment bond is included in the pricing.
- Contract terms from the piggybacked Gwinnett County RP012-22 apply to this Work.

- Pricing is valid for 45 days from the date of this proposal.

3.0 Objectives

Approximately 30 LF of the 24" ductile iron pipe will be replaced with a series of pipe, sleeves, and restrained joints. Approximately 3,000 CY of fill material will be used to develop access to the pipeline and restore the washed out areas near the roadway.

4.0 Scope of Work

Task 1: Procurement

1. 30 LF of 24" Class 150 Ductile Iron Pipe
2. Contracts with subcontractors for traffic control, utility investigation, dewatering, and compaction testing
3. Engineered shoring design

Task 2: Detailed Work Steps

1. Develop a detailed work plan and safety plan before starting work.
2. Have a pre-activity meeting with Seminole County.
3. Install MOT to block westbound lane. Traffic will be flagged around work zone during working hours and restored to two-way traffic at the end of each shift.
4. Import fill material to establish access to the pipe and restore washed out areas.
5. Clear & grub to establish work area near broken pipe.
6. Pothole for existing utilities and develop excavation plan and shoring at broken pipe area.
7. Excavate and install shoring at pipe break location.
8. Install well-point dewatering system.
9. Remove damaged pipe and install new pipe, sleeves and couplings.
10. Backfill pipe and perform visual leak detection.
11. Complete backfill, remove shoring and dewatering systems, and demobilize.

Task 3: Summary Report

- KWFF will provide a report summarizing the work performed.
- Document (with photographs) all activities.
- Redlined as-built drawings with new invert elevations and pipe sizing.

5.0 Preliminary Schedule

The following is a summary of the preliminary schedule for this project (approximate durations to be refined in final proposal). Crews will work five (5) days per week, ten (10) hours per day. Saturday work will be evaluated and performed as allowed.

MCCULLOCH RD

24IN RECLAIM MAIN BREAK

Seminole County Environmental Services experienced a large diameter reclaim water main break. The break is located in the R.O.W. alongside McCulloch Road, roughly near the intersection of Lockwood Blvd.

Project Specifics

The County is looking to secure a contractor to repair the broken 24in reclaim water main, restore service, and conduct site restoration of the affected area the break occurred.

Objective:

1. Repair – 24in ductile iron reclaim water main. Estimated 30ft section of 24in ductile iron pipe will need to be repaired, including multiple ductile couplings and all necessary parts.
2. Leak test and restore services to county reclaim accounts and bulk metering reclaim water to City of Oviedo.
3. Restore roadway site to include filling in large 75ft wide x 20ft deep embankment to original condition. Reclaim break caused soil in surrounding area to be pushed up and away from break site. Area will need stable fill under the reclaim water main and standard fill dirt to rebuild embankment along with total site.

Challenges:

Site is located along McCulloch Rd with minimal site access. Jobsite will require MOT, lane closure, flagging operation. Roadway has the potential to see several thousand cars per day back and forth traffic.

Removal of brush, trees, and soil will be required to access site. Break in pipe is located approx. 70ft off the edge of pavement and roughly 10ft of elevation change from edge of pavement to break.

Reclaim pipe appears to have slight deflection from break, requiring potential thrust blocking to secure main once repair is complete.

Overhead power, underground gas, telecom, water, fiber, and other potential utilities directly in conflict with the project. Contractor will be responsible to identify and protect utilities per state statutes.

Folks,

I have been in contact with Carrie hammering out funding lines for the McCulloch Rd. repair and it sounds like she has it covered with the budgeting office.

Attached is the EPO packet for signatures. I would as Jonny suggested and add a little extra to the BAR but I have been talking to Kiewit's project manager emphasizing that any change orders will be picked at.

Dan / Chris / Elisa,

Thank you for coordinating. Will Operations flush the pipe following the repair?

Unless there are comments on the proposal...

- 1 – Who starts the EPO Request – Dan? I would suggest adding 15-20% contingency on top of the \$535K.
- 2 - Kim should be back (unless something unexpected at BCC today) early afternoon to sign. (Diane - can a Deputy sign EPO request?)
- 3 – Carrie / Wanda – Do we have available budget for the repair...how do we pay for this?

Thank you,

All,

From our initial investigations and understanding of the scope of work we have developed a Rough Order of Magnitude (ROM) estimate and a preliminary scope of work document (attached).

There are still a handful of questions to be answered, and this could be piecemealed to advance the parts we are sure of now as some of the unknowns can't be quantified until access is developed/restored to the pipeline. For example, where exactly are the other utilities and how will they impact the pipe repair excavation, what kind of debris needs to be cleaned up/down stream of the break, how much fill will be needed to establish access and backfill the pipe, what is the elevation of groundwater, etc. We have attempted to make reasonable presumptions about these items to arrive at the ROM estimate and ensure that the final cost for the repair does not exceed the ROM estimate.

Please let us know what questions you have, and if we need to schedule a meeting either at the site or over Teams.

Subject: [EXTERNAL] RE: Reclaim Water Main break - McCulloch Rd.

All,

Quick update regarding the reclaim main break on McCulloch:

- We were able to identify the leak, which appears to be a pretty substantial hole in the side of the ductile iron pipe.
- We are unable to access the pipe to make the repair due to the location of the main and what would be needed to repair.
- Kiewitt met Dan and myself on site today to discuss the break and repair, which ended in some follow up questions. I will follow up with Elisa tomorrow, but basically it was scope of work, if it needs to go to bid, timeframe etc.
- We backfilled the hole to secure the embankment along McCulloch to a certain extent, but more work needs to be done.

Please see attached for a brief overview, some photos, and a general outline.

All,

Good afternoon. We have an un-authorized reclaim water discharge of 1.6 million gallons @ 14001 McCulloch Rd. We isolated the break, collected samples, and collecting information to start the repair. Affected the stormwater system directly to the west. Incident has been reported to State Watch Office and FDEP.

Let me know if you have any questions/concerns.
